Location: Islamabad, Pakistan

Remote Work Available

SUMMARY

Highly accomplished Senior Software Engineer and AI Researcher with over 5 years of experience in developing cutting-edge AI solutions and scalable SaaS platforms. Published researcher with multiple IEEE conference papers and a history of leveraging technology for social good. Multilingual leader proficient in English, Urdu, Hindi, and Pashto.

PROFESSIONAL EXPERIENCE

- Remotebase** Pakistan
 - Senior AI Engineer* June 2024 - Present
 - AI Innovation:** Pioneered the development of a Real-Time Interview Assistant leveraging LangChain and advanced AI algorithms, enhancing candidate assessment accuracy by 45%.
 - Scalable Architectures:** Optimized large-scale distributed databases, improving data retrieval speeds by 60% and system scalability.
 - Technical Leadership:** Led a cross-functional team in implementing solutions using FastAPI, Firebase, and real-time cloud technologies.
- ViralNation** Remote, Canada
 - Lead Backend Engineer* Feb 2023 - Dec 2023
 - Social Analytics Platform:** Architected and deployed a high-throughput data processing system handling over 10 million social media data points daily.
 - Microservices Architecture:** Designed and integrated microservices connecting multiple third-party APIs, reducing data latency by 35%.
 - Data Engineering:** Developed complex MongoDB aggregation pipelines, enhancing the performance of real-time analytics dashboards.
- RrampUp (Sofia)** Remote, Canada
 - Software Engineer* Jan 2022 - Dec 2022
 - Cloud Integration:** Implemented an automated file synchronization system between local storage and cloud platforms, reducing manual effort by 70%.
 - Process Optimization:** Accelerated the product development lifecycle by 30% through the adoption of agile methodologies and CI/CD pipelines.
 - Infrastructure Development:** Deployed and managed a robust Firebase infrastructure with real-time data capabilities, supporting over 100,000 active users.
- PITB Incubation Wing** Kohat, Pakistan
 - Founding Engineer & Team Lead* July 2021 - Nov 2022
 - Entrepreneurial Leadership:** Founded and led the development of a fitness management SaaS platform from concept to launch, acquiring 50,000+ users within the first year.
 - Team Management:** Directed a multidisciplinary team of 10 engineers, designers, and marketers, fostering a collaborative and innovative work environment.
 - User-Centric Design:** Implemented a comprehensive customer feedback system, increasing user satisfaction scores by 40% and improving ROI.

EDUCATION

- Kohat University of Science & Technology** Kohat, Pakistan
 - Bachelor of Science in Computer Science (GPA: 3.84/4.00)* 2017 - 2021
 - Academic Excellence:** Graduated top of the class; recipient of merit-based scholarship for outstanding academic performance.
 - Research Projects:** Developed an AI-powered computer vision system for plant disease detection, aiding over 10,000 local farmers and winning first place in a national competition.
- Stanford University Online Courses** Online
 - Specialization in Algorithms and Data Structures* May 2022 - Dec 2022
 - Advanced Studies:** Completed courses in advanced algorithms, machine learning, and AI, enhancing expertise in computational methodologies.

PUBLICATIONS

- **IEEE Transactions on Artificial Intelligence**
Researcher and Author 2023
 - **Memory-Augmented Architecture for LLMs:** Authored “*Memory-Augmented Architecture for Long-Term Context Handling in Large Language Models*”, proposing innovative methods to enhance context retention in LLMs.
 - **Efficient Vision Transformers:** Published “*Efficient Vision Transformer-Based LLM for Edge Devices*”, introducing a hybrid CNN-transformer model optimized for low-resource, high-performance AI on edge devices.

TECHNICAL SKILLS

- **Programming Languages:** Expert in Python; Proficient in JavaScript, TypeScript, C++.
- **Frameworks and Libraries:** FastAPI, Flask, Django, TensorFlow, PyTorch, LangChain, React, Node.js.
- **Cloud and DevOps:** AWS (Lambda, ECS, S3), Firebase, Docker, Kubernetes, Git, CI/CD pipelines.
- **Data and AI:** Machine Learning, Deep Learning, Computer Vision, NLP, Pandas, NumPy, Redis.
- **Databases:** PostgreSQL, MongoDB, MySQL, SQLite, Cloud Firestore.

AWARDS & HONORS

- **National Innovation Award:** First Place in National Idea Competition for AI-powered agricultural solutions.
- **Academic Scholarship:** Merit-based scholarship for ranking top 1% in undergraduate program.
- **Open Source Contributions:** Recognized by major open-source projects for significant code contributions and optimizations.

LEADERSHIP & VOLUNTEERING

- **Changemakers MUN** Global
Ambassador and Mentor 2019 - Present
 - **Youth Mentorship:** Mentored students from over 20 countries, guiding them in entrepreneurial and technological initiatives.
 - **Cross-Cultural Collaboration:** Facilitated international dialogues promoting innovation and social impact projects among youth.
- **Stack Overflow** Global
Active Contributor 2018 - Present
 - **Community Engagement:** Provided expert solutions with over 350,000 views; earned 3 gold, 14 silver, and 28 bronze badges.

CERTIFICATIONS

- **Deep Learning Specialization:** Coursera, Andrew Ng.
- **Machine Learning Engineer Nanodegree:** Udacity.
- **AWS Certified Solutions Architect – Associate:** Amazon Web Services.

SELECTED PROJECTS

- **Distracted Driver Detection System** 2020
Lead Developer
 - **AI Safety Systems:** Developed an AI-powered system for autonomous vehicles to detect driver distraction and issue real-time alerts, enhancing road safety protocols.
- **Edge Device AI Optimization** 2021
Researcher
 - **Efficient AI Models:** Created lightweight AI models optimized for deployment on edge devices, improving performance while reducing computational requirements.
